

SANUNO Classic

DESCRIPTION:

Point-of-use countertop water filtration for obtaining filtered drinking water. To be used with declared drinking water only. Very suitable for the preparation of beverages, water for cooking, etc.

AREA OF APPLICATION:

Commonly used in the kitchen. To install, screw on to the faucet using the special deflector valve aerator. To use, turn on cold water flow then quarter-turn the lever on the valve. The cold water now passes the inserted cartridge and exit the units outlet filtered.

TECHNICAL DATA:

Part no.:	125UNOST (Classic)
Measures:	Filter unit without connections (WxHxD): 120x290x122 mm; length of connection hose: 90 cm
Weight:	Complete dry ca. 1.3 kg (2.9 lbs), complete wet ca. 2.1 kg (4.6 lbs).
Material:	Housing made of PP, hose from faucet made of plasticiser-free PVC-U
Flow:	Approx. 120 liters per hour with NFP Premium (standard) (at 4 bar, after 5 min. initial flow)
Filtration Performance:	For the removal of contaminants, see filter cartridge data sheets for NFP Premium (standard) or for desired cartridge.

OPERATION NOTE:

- **Connect to kitchen faucet with enclosed deflector valve M 22 x 1 inner threading** (adapter for water faucets with inner threading M 24 x 1 also enclosed)
- **Do not use behind a depressurized storage water heater!**
- **Do not attach to a spray hose armature!**
- **Operate only with cold water!** Protect from freezing.

COMPATIBLE CARTRIDGES:

Holds any CARBONIT® filter cartridge or standard 9 3/4" cartridge (max. 72 mm diameter).

SCOPE OF SUPPLY:

Complete filter device with connection hose and special deflector valve with adapter for internal thread.
A CARBONIT® Monoblock **NFP Premium** filter cartridge is included.

AVAILABLE VERSIONS:

- **SANUNO Basic** (125UNOST-OP): no cartridge included
- **SANUNO Vital** (125UNOV4): contains EM Premium D cartridge instead of NFP Premium, includes water whirling extension and special re-vitaliser on the top of the housing
